

1983 INDEX

A

Abdomen

NMR imaging of, *May* 63-65
pain in chronic pancreatitis,
Mar. 71

Abortion: in SLE, 1982, *Oct.* 53

Abscess cavity: in colonic
diverticulitis, 1982, *Dec.* 41-
42

Acute illness: lung disease in,
diffuse interstitial, *Sept.* 31-
32

Adenocarcinoma: of stomach,
metastatic, *Sept.* 41

Adenosine 3',5'-cyclic
monophosphate: and
prostaglandin, 1983, *Dec.*
17-18

AIDS, 1983, *Oct.* 5-48

Burkitt's lymphoma in, 1983,
Oct. 33-34

cancers in, common, 1983, *Oct.*
28-35

candidiasis in, 1983, *Oct.* 22-23

chorioretinitis in, 1983, *Oct.* 13

clinical problems in, frequent,
1983, *Oct.* 9-13

clinical syndrome of, 1983, *Oct.*
7-35

cryptococcal infection in, 1983,
Oct. 26-27

cytomegalovirus infection in,
1983, *Oct.* 20-22

definition, 1983, *Oct.* 5-7

diarrhea in, 1983, *Oct.* 12-13

dyspnea in, 1983, *Oct.* 9-10

epidemiologic data on, current,
1983, *Oct.* 39-41

etiology, 1983, *Oct.* 43-46

family members of patients,
precautions for, 1983, *Oct.*
41-43

fever in, 1983, *Oct.* 10-11

health care workers in,
precautions for, 1983, *Oct.*
41-43

herpes simplex in, 1983, *Oct.*
25-26

historical perspective on, 1983,
Oct. 5-7

infections common in,
opportunistic, 1983, *Oct.* 7-
28

specific infections, 1983, *Oct.*
13-28

infectious manifestations,
common, therapy, 1983, *Oct.*
18-19

infectious processes in, common,
1983, *Oct.* 14

Kaposi's sarcoma in, 1983, *Oct.*
28-33

laboratory evaluation, 1983, *Oct.*
35-41

lymphadenopathy in, persistent
generalized, 1983, *Oct.* 34-
35

mycobacteria in, 1983, *Oct.* 23-
25

neurologic dysfunction in, 1983,
Oct. 11-12

pneumonia in, *Pneumocystis*,
1983, *Oct.* 15-20

prodrome, 1983, *Oct.* 7-9

pulmonary infiltrates in, 1983,
Oct. 9-10

toxoplasmosis in, 1983, *Oct.* 27-
28

treatment, 1983, *Oct.*
43-46

Air pollution: vitamin C
preventing lung damage
from, *Feb.* 17

Algorithms: for insulin
adjustment, *Apr.* 28

- Allergic alveolitis (*see* Alveolitis, extrinsic allergic)
- Allergic syndromes: and NSAIDs, 1983, *Dec.* 31
- Alpha-tocopherol (*see* Vitamins, E)
- Alveolar
 carcinoma, differential diagnosis, *Sept.* 30
 cell carcinoma, *Sept.* 8
 proteinosis, differential diagnosis, *Sept.* 29–30
- Alveolitis, extrinsic allergic
 causes of, *Sept.* 25–26
 diagnosis, differential, *Sept.* 25–28
 forms of, *Sept.* 25–26
- Anemia: iron-deficiency, ferritin level in, *Aug.* 25
- Aneuploidy, 1983, *Nov.* 6
- Aneurysm
 aortic, echocardiography of, two-dimensional, *Jan.* 26
 ventricular, left, *Jan.* 35
- Angioarchitecture: of colonic diverticulum, 1982, *Dec.* 49
- Angiodysplasia: of colon, causing hemorrhage, 1982, *Dec.* 51
- Angiography
 of hemorrhage from sigmoid diverticulum, 1982, *Dec.* 55
 pulmonary, in pulmonary embolism, 1982, *Nov.* 17, 18
- Antibody(ies)
 antinuclear (*see* Antinuclear antibodies)
 monoclonal, 1983, *Nov.* 6
 production of, 1983, *Nov.* 18
- Anticoagulants in pulmonary embolism, 1982, *Nov.* 19–24
 long-term, 1982, *Nov.* 22–24
- Anti-inflammatory drugs, 1983, *Dec.* 5–46
 glossary for, 1983, *Dec.* 5
 in lupus erythematosus, systemic, 1983, *Oct.* 50–51
 nonsteroidal (*see* NSAIDs)
 prostaglandin and, 1983, *Dec.* 19–24
- Antimalarial drugs: in SLE, 1982, *Oct.* 49–50
- Antinuclear antibodies
 drug-induced, management, 1982, *Oct.* 58
 immunofluorescence of, indirect, 1982, *Oct.* 40–43
 in SLE, 1982, *Oct.* 39–43
- Antiplatelet agents: in pulmonary embolism, 1982, *Nov.* 37
- Anus: canal hemorrhage, characteristics of, 1982, *Dec.* 52
- Aortic
 aneurysm, echocardiography of, two-dimensional, *Jan.* 26
 regurgitation, *Jan.* 25–26
 stenosis (*see* Stenosis, aortic) valve, *Jan.* 22
- Aphasia: Broca's, *May* 48
- Aplastic crisis: in sickle cell disease, *July* 23–24
- Apolipoprotein metabolism, *June* 22–24
- Apoprotein
 A, *June* 24
 B, *June* 22
 C, *June* 23
 E, *June* 23
- Appendix: diverticula of, 1982, *Dec.* 32
- Arteries
 atheromatous, cross sections of, *June* 17
 coronary, disease, *Jan.* 34–42
 wall response factors and atherosclerosis, *June* 46–47
- Ascites: Walker sarcoma, pH change in, *May* 37
- Ascorbic acid (*see* Vitamins, C)
- Aseptic necrosis: in SLE, 1982, *Oct.* 52–53
- Aspirin
 in lupus erythematosus, systemic, 1982, *Oct.* 50–51
 structure of, 1983, *Dec.* 23
- Atherogenic mechanisms: for smoking, *June* 39–41
- Atherogenicity: of lipoproteins, *June* 31–35
- Atheromatous arteries: cross sections of, *June* 17

- Atherosclerosis, *June* 3-58
arterial wall response factors
and, *June* 46-47
chemistry of lesions, *June* 7-9
cholesterol and, *June* 24-26
chylomicrons and, *June* 21
collagen deposition in, *June* 16-18
diabetes and, *June* 41-42
documented
hypertension and, *June* 36
smoking and, *June* 39
early lesions, *June* 7
fatty acids and, saturated, *June* 45-46
fatty streaks in, *June* 6
foam cell formation in, *June* 18-19
hemodynamic factors in, *June* 37-38
hypertension and, *June* 35-38
"intermediate" lesions in, *June* 9
lipids and, *June* 26-28
lipoproteins and, *June* 20-35
mechanisms of, and
hypertension, *June* 37-38
niacin preventing or reversing,
Feb. 25-27
obesity and, *June* 43-44
pathology
gross, *June* 4-5
microscopic, *June* 6-7
plaques
atheromatous, lipoproteins in,
June 9
circulating factors in, *June* 11-12
endothelial barrier and, *June* 13
endothelial injury in, *June* 10-12
evolution, *June* 9-19
fibrous, *June* 7, 8
hemodynamic stresses and,
June 11
lipid infiltration in, plasma,
June 13-16
smooth muscle cell
proliferation and, *June* 12
risk factors for, *June* 19-35
secondary, *June* 42-46
salt and, dietary, *June* 46
smoking and, *June* 38-41
smoking as risk factor, *June* 38
vasa vasorum in, role of, *June* 13-16
vitamin C preventing, *Feb.* 15-16
Athletic prowess: and vitamin E,
Feb. 45
Atrial
fibrillation,
echophonocardiography of,
Jan. 13
myxoma, *Jan.* 38
septal defect, ostium primum,
echocardiography of, two-
dimensional, *Jan.* 45
thrombus, *Jan.* 16
Autosyringe model AS-6C, *Apr.* 35
- B
- Beef tallow: (in mice), 1983, *Dec.* 39
Bentriomide test: in chronic
pancreatitis, *Mar.* 59-61
Beta⁺ gene: restriction site
polymorphism linked to,
July 64
Binswanger's disease, *May* 47
Biology (see Molecular biology)
Biomedical technology: and cancer,
1983, *Nov.* 32-38
Biopsy
kidney, in SLE, 1982, *Oct.* 23-24
in lung disease, diffuse
interstitial, *Sept.* 33-36
procedures, *Sept.* 33-36
studies in insulin-dependent
diabetes, *Apr.* 11-13
Biotin, *Feb.* 31
untoward effects, *Feb.* 31
Bleeding (see Hemorrhage)
Bowel: small, in pseudocyst of
pancreas, *Mar.* 38
Brain
imaging

- Brain (*cont.*)
 in lupus erythematosus,
 systemic, 1982, *Oct.*
 29-30
 NMR (*see* Nuclear magnetic
 resonance, imaging, of
 brain)
 tumors, NMR imaging of, *May*
 49-51
 Breast disease: fibrocystic, and
 vitamin E, *Feb.* 41
 Broca's aphasia, *May* 48
 Burkitt's lymphoma: in AIDS,
 1983, *Oct.* 33-34

C

- Cadmium: and smoking, *June* 40
 Calcification of pancreas (*see*
 Pancreas, calcification)
 Cancer
 in AIDS, common cancers, 1983,
Oct. 28-35
 biomedical technology and, 1983,
Nov. 32-38
 metastatic, differential
 diagnosis, *Sept.* 31
 vitamin megadoses in, *Feb.* 48-
 50
 Candidiasis: in AIDS, 1983, *Oct.*
 22-23
 Carbon monoxide: and smoking,
June 40
 Carcinoma
 adenocarcinoma of stomach,
 metastatic, *Sept.* 41
 alveolar cell, *Sept.* 8
 alveolar, differential diagnosis,
Sept. 30
 sigmoid colon, 1982, *Dec.* 44
 Cardiac (*see* Heart)
 Cardiomyopathy, *Jan.* 29-32
 congestive, ventricular thrombus
 in, *Jan.* 39
 Care (*see* Health care)
 CAT scanning: in SLE, 1982, *Oct.*
 29-30
 CCK test: in chronic pancreatitis,
Mar. 57
 cDNA, 1983, *Nov.* 6
 Cecal diverticulum: solitary, 1982,
Dec. 36-37
 Cell(s)
 alveolar cell carcinoma, *Sept.* 8
 eukaryotic, 1983, *Nov.* 6
 foam cell formation in
 atherosclerosis, *June* 18-19
 giant cell tumor of radius, NMR
 images of, *May* 34
 human, growth in tissue culture,
 1983, *Nov.* 9-11
 100-cell differential count,
 variability of, *Aug.* 14
 sickle cell (*see* Sickle cell)
 single cell plating, 1983, *Nov.* 7
 smooth muscle cell proliferation
 in atherosclerosis, *June* 12
 somatic (*see* Hybrids, somatic
 cell)
 Central nervous system: and
 NSAIDs, 1983, *Dec.* 30-31
 Cerebrospinal fluid abnormalities:
 in SLE, 1982, *Oct.* 29
 Chest
 NMR imaging of, *May* 63-65
 radiography, in lung disease,
Sept. 7-10
 Children: SLE of, 1982, *Oct.* 60-61
 Cholangiography: of pancreatic
 calcification and stenosis,
Mar. 54
 Cholangiopancreatography
 of pancreatic calcification, *Mar.*
 63
 of pancreatic duct stone, *Mar.* 45
 in pancreatitis, chronic, *Mar.*
 62-66
 Cholecystokinin test: in chronic
 pancreatitis, *Mar.* 57
 Cholesterol
 absorption, *June* 24
 atherosclerosis and, *June* 24-26
 catabolism, *June* 24-25
 dietary, *June* 24, 44-45
 HDL, and vitamin E, *Feb.* 43
 level and coronary events, *June*
 27
 metabolism, *June* 24-26
 plasma, *June* 25
 total, *June* 26-28

reverse transport, *June 25-26*
 synthesis, *June 24-25*
 Chorioretinitis: in AIDS, 1983,
Oct. 13
 Chromosomes
 identification of, 1983, *Nov. 11-14*
 recombinant DNA techniques
 and, 1983, *Nov. 28-29*
 study of, 1983, *Nov. 11-14*
 Chylomicrons, *June 32-33*
 atherosclerosis and, *June 21*
 remnants of, *June 32-33*
 Claudication: and vitamin E, *Feb.*
42-43
 Cloning vectors, 1983, *Nov. 6*
 Collagen: deposition in
 atherosclerosis, *June*
16-18
 Colon
 angiodysplasia, causing
 hemorrhage, 1982, *Dec. 51*
 diverticula (see Diverticula,
 colon)
 diverticulitis (see Diverticulitis,
 colon)
 diverticulosis (see Diverticulosis,
 colon)
 sigmoid (see Sigmoid)
 Complement abnormalities: in
 SLE, 1982, *Oct. 37-39*
 Computed (see Tomography,
 computed)
 Connective tissue: mixed
 connective tissue disease in
 SLE, 1982, *Oct. 60*
 Contraceptives: oral, and vitamin
 B₆, *Feb. 28-29*
 Coronary
 artery disease, *Jan. 34-42*
 events, and cholesterol level,
June 27
 Corticosteroids
 in lupus erythematosus,
 systemic, 1982, *Oct. 48-49*
 prostaglandin and, 1983, *Dec.*
32-33
 Costs: health care costs, *Aug. 9*
 Coumadin: in pulmonary
 embolism, 1982, *Nov. 34*

Cramps: of leg and foot, vitamin E,
Feb. 44
 Cryptococcal infection: in AIDS,
 1983, *Oct. 26-27*
 Cytomegalovirus infection: in
 AIDS, 1983, *Oct. 20-22*

D

Death: sudden infant death
 syndrome prevented by
 vitamin C, *Feb. 17-18*
 Deletion mutant, 1983, *Nov. 6*
 Diabetes mellitus
 atherosclerosis and, *June*
41-42
 complications prevented or
 delayed by vitamin C, *Feb.*
16-17
 insulin-dependent, *Apr. 8-65*
 animal models in, studies of,
Apr. 19-20
 biopsy studies in, *Apr. 11-13*
 control approaches, *Apr. 8-65*
 insulin pumps in (see Insulin,
 pumps)
 intensive ambulatory
 treatment (see below)
 metabolic studies in, *Apr. 13-17*
 self-monitoring in (see Self-
 monitoring)
 transplant of pancreas and
 islets in, *Apr. 52-57*
 treatment response in, *Apr.*
17-19
 insulin-dependent, intensive
 ambulatory treatment, *Apr.*
20-48
 economic impact, *Apr. 44-45*
 impact on complications, *Apr.*
43-44
 indications, *Apr. 46-48*
 long-term, contraindications,
Apr. 47
 recommendations, *Apr. 46-48*
 short-term benefit from, *Apr.*
48
 normal metabolism in, rationale
 for restoring, *Apr. 10-20*

- Diarrhea, *Mar.* 60
in AIDS, 1983, *Oct.* 12-13
- Distribution: Gaussian frequency, *Aug.* 17
- Diverticula, 1982, *Dec.* 5-61
appendix, 1982, *Dec.* 32
cecum, solitary diverticulum, 1982, *Dec.* 36-37
colon, 1982, *Dec.* 32-57
angioarchitecture of, 1982, *Dec.* 49
epidemiology, 1982, *Dec.* 33
formation of, 1982, *Dec.* 36
hemorrhage in, 1982, *Dec.* 47-57
multiple, 1982, *Dec.* 34
pathology, 1982, *Dec.* 33-35
duodenum, 1982, *Dec.* 19-25
clinical manifestations, 1982, *Dec.* 21-22
complications, 1982, *Dec.* 23-24
radiography of, 1982, *Dec.* 22-23
treatment, 1982, *Dec.* 24-25
esophagus, *Dec.* 11-15
epiphrenic, 1982, *Dec.* 15, 16
midesophageal traction, 1982, *Dec.* 13
multiple, 1982, *Dec.* 14
scleroderma and, 1982, *Dec.* 15
subdiaphragmatic, 1982, *Dec.* 14
upper, 1982, *Dec.* 12
gastrointestinal, 1982, *Dec.* 5-61
hypopharyngeal
anterior, 1982, *Dec.* 6-7
lateral, 1982, *Dec.* 6-7
posterior, 1982, *Dec.* 7-11
ileum, terminal, 1982, *Dec.* 30-31
interaorticobronchial, 1982, *Dec.* 12
interbronchial, 1982, *Dec.* 12-13
intestine, small
clinical manifestations, 1982, *Dec.* 27-28
complications, 1982, *Dec.* 27-28
multiple, 1982, *Dec.* 26
- Meckel's diverticulum, 1982, *Dec.* 28-30
diagnosis, 1982, *Dec.* 30
scanning with ^{99m}Tc-pertechnetate, 1982, *Dec.* 31
pharyngeal, 1982, *Dec.* 7
sigmoid
giant, 1982, *Dec.* 37
hemorrhage (*see* Hemorrhage, in diverticulum of sigmoid)
stomach, 1982, *Dec.* 15-19
juxtacardiac, 1982, *Dec.* 19
Zenker's diverticulum, 1982, *Dec.* 7-11
- Diverticulitis, colon, 1982, *Dec.* 41-46
abscess cavity in, *Dec.* 1982, 41-42
clinical picture, *Dec.* 1982, 41-43
sigmoid, 1982, *Dec.* 44
treatment, 1982, *Dec.* 46-47
- Diverticulosis
colon
clinical features, 1982, *Dec.* 39-40
complications, 1982, *Dec.* 41-46
hemorrhage of (*see* Hemorrhage, in diverticulosis of colon)
pathogenesis, 1982, *Dec.* 37-39
right-sided, 1982, *Dec.* 35-36
ileum, 1982, *Dec.* 25-28
intestine, small, steatorrhea in, 1982, *Dec.* 27
jejunum, 1982, *Dec.* 25-28
sigmoid, 1982, *Dec.* 43
spastic, management, 1982, *Dec.* 40-41
- DNA
cloning, 1983, *Nov.* 25
double-stranded, 1983, *Nov.* 20
probe, 1983, *Nov.* 6
recombinant (*see* Recombinant DNA)
reiterated sequence, 1983, *Nov.* 7
restriction and, 1983, *Nov.* 7

unique sequence, 1983, *Nov.* 7
virus
promoter region, 1983, *Nov.* 36
terminator region, 1983, *Nov.* 36
Doppler flow detection: in deep vein thrombosis, 1982, *Nov.* 7
Drug(s)
anti-inflammatory (*see* Anti-inflammatory drugs)
antimalarial, in SLE, 1982, *Oct.* 49–50
antiplatelet, in pulmonary embolism, 1982, *Nov.* 37
-induced antinuclear antibodies 1983, *Oct.* 58
-induced lupus (*see* Lupus, drug-induced)
lung disease due to, diffuse interstitial, *Sept.* 30
in lung disease etiology, diffuse interstitial, *Sept.* 12
thrombolytic (*see* Embolism, pulmonary, thrombolytic agents)
vasoactive, in pulmonary embolism, 1982, *Nov.* 37
Duodenum (*see* Diverticula, duodenum)
D-xylose test: in chronic pancreatitis, *Mar.* 59, 60
Dysbetalipoproteinemia: familial, *June* 30–31
Dyspnea: in AIDS, 1983, *Oct.* 9–10

E

Echocardiography, *Jan.* 6–53
of mitral regurgitation, *Jan.* 18
of mitral stenosis, *Jan.* 11
of mitral valve, normal, *Jan.* 11
M-mode
in aortic stenosis, *Jan.* 23
in aortic stenosis, subvalvular, *Jan.* 24
in IHSS, *Jan.* 31
in mitral prolapse, *Jan.* 19
of mitral stenosis, *Jan.* 16
normal, *Jan.* 8

in pericardial effusion, *Jan.* 43
new developments in, *Jan.* 47–49
overview of, *Jan.* 47–49
two-dimensional
in aortic aneurysm, *Jan.* 26
in atrial septal defect, ostium primum, *Jan.* 45
in mitral endocarditis, *Jan.* 40, 41
normal, *Jan.* 8–9
Echophonocardiography: of atrial fibrillation, *Jan.* 13
Ectasias: of pancreatic duct, *Mar.* 63, 64
Electrocardiography: in pulmonary embolism, 1982, *Nov.* 15
Electroencephalography: in SLE, 1982, *Oct.* 29
Embolectomy: pulmonary, in embolism, 1982, *Nov.* 29–30
Embolism, pulmonary, 1982, *Nov.* 4–41
adjunctive therapy, 1982, *Nov.* 32–33
angiography of, pulmonary, 1982, *Nov.* 17–18
anticoagulants in, 1982, *Nov.* 19–24
long-term, 1982, *Nov.* 22–24
antiplatelet agents in, 1982, *Nov.* 37
coumadin in, 1982, *Nov.* 34
diagnosis, 1982, *Nov.* 13–19
methods, 1982, *Nov.* 14
electrocardiography of, 1982, *Nov.* 15
embolectomy in, pulmonary, 1982, *Nov.* 29–30
epidemiology, 1982, *Nov.* 4–6
evaluation for, 1982, *Nov.* 19
heparin in, 1982, *Nov.* 34–37
lytic therapy, clinical considerations with, 1982, *Nov.* 26
pathophysiology of, 1982, *Nov.* 12
prevention by interrupting venous system, 1982, *Nov.* 30–32

Embolism (*cont.*)

- prophylaxis, 1982, *Nov.* 33-38
- physical, 1982, *Nov.* 37-38
- scanning of, perfusion and ventilation, 1982, *Nov.* 15-17
- signs of, 1982, *Nov.* 12-13
- streptokinase in, 1982, *Nov.* 25
- study of deep venous system of legs in, 1982, *Nov.* 17-18
- surgery of, 1982, *Nov.* 29-32
- symptoms of, 1982, *Nov.* 12-13
- presenting, 1982, *Nov.* 13
- thrombolytic agents in, 1982, *Nov.* 24-29
- contraindications, 1982, *Nov.* 28
- results, 1982, *Nov.* 26
- urokinase in, 1982, *Nov.* 25
- vasoactive drugs in, 1982, *Nov.* 37
- Encephalopathy: hypertensive subcortical, *May* 47
- Endocarditis: mitral, echocardiography in, two-dimensional, *Jan.* 40, 41
- Endonucleases: restriction, 1983, *Nov.* 7
- Endothelial
 - barrier, and atherosclerosis, *June* 13
 - injury, and plaque in atherosclerosis, *June* 10-12
- Enzyme: restriction, recognition site for, 1983, *Nov.* 22
- ERCP (*see* Cholangiopancreatography)
- Esophagus
 - diverticula (*see* Diverticula, esophagus)
 - pseudodiverticulosis, intramural, 1982, *Dec.* 13-14
- Eukaryotic cells, 1983, *Nov.* 6
- Examination (*see* Physical examination)
- Extremities: NMR imaging of, *May* 63
- Eye manifestations: of SLE, 1982, *Oct.* 33

F

- Fat: stool, in chronic pancreatitis, *Mar.* 58
- Fatty acid
 - polyunsaturated precursors, 1983, *Dec.* 14
 - substrates, in prostaglandin and leukotriene synthesis, 1983, *Dec.* 35
 - saturated, and atherosclerosis, *June* 45-46
- Fatty streaks: in atherosclerosis, *June* 6
- Ferritin level: in iron-deficiency anemia, *Aug.* 25
- Fever: in AIDS, 1983, *Oct.* 10-11
- Fibrillation: atrial, echophonocardiography of, *Jan.* 13
- Fibrinogen: ¹²⁵I-, scanning in deep vein thrombosis, 1982, *Nov.* 9-10
- Fibroblasts: tissue culture of, 1983, *Nov.* 10
- Fibrosis-pneumonitis: classic interstitial, differential diagnosis, *Sept.* 19-21
- Foam cell formation: and atherosclerosis, *June* 18-19
- Folic acid, *Feb.* 29-30
- untoward effects, *Feb.* 30
- Foot cramps: vitamin E in, *Feb.* 44
- Frequency distribution: Gaussian, *Aug.* 17

G

- Gastric (*see* Stomach)
- Gastrointestinal
 - diverticula, 1982, *Dec.* 5-61
 - manifestations of SLE, 1982, *Oct.* 31-33
 - toxicity of NSAIDs, 1983, *Dec.* 24-25
- Gaussian frequency distribution, *Aug.* 17
- Gene
